Caring for animals. What do our tadpoles need to live and thrive? Water, food, light, plants, hiding places.

Key knowledge - to understand the life cycle of the frog.

Caring for tadpoles and living creatures. We are responsible for looking after our tadpoles and making sure we give them everything they need to grow and thrive.

Possible activities and experiences

Hatch frogspawn so the children see, and are involved in the complete lifecycle.

Drama – acting out the life cycle of the frog and photograph to form a display.

Compare to the life cycles of other animals – humans, chickens, butterflies, stickinsects.
