Coley Primary School – Knowledge Organiser

SUBJECT FOCUS:	Spring	FS2	TERM 4

WHAT? – Key Knowledge

Spring is one of the four **seasons** of the year. It comes after winter and before summer. Spring is the months of March, Arpil and May. In the spring the days start to get longer again.

The weather begins to get warmer and there are sudden rain showers. The first flowers of the year bloom and leaves bud on the trees.

Some birds make nests and lay eggs in the spring. The chicks are hatched and fed by their parents.

In the spring bees start to collect nectar from flowers, frogs lay eggs in ponds (frogspawn) and insects such as butterflies and ladybirds are seen.

Key Vocabulary	
Spring	The season after winter.
Season	One of the four parts of the year.
Bud	The beginning of a flower or leaf on a plant.
Flowers	Part of a plant that is usually brightly coloured and has petals.
Christian	People who believe Jesus was the Son of God and follow his teachings.

Possible experiences:

Visit Holy Brook Nook
Look for signs of spring around the school grounds.
Paint blossom and daffodils.
Listen to the Easter story.
Try hot cross buns.

Easter

In the spring, Christians celebrate the festival of Easter. They read the story about Jesus' death on the cross and that he rose again and went to heaven. People might celebrate Easter by visiting church, giving Easter eggs and eating hot cross buns.

Mothers' Day

Mothers' Day or Mothering Sunday is a special celebration in March when people give cards and gifts to their mummies to thank them for looking after them.
